Vote For Your Interest; Vote For Morgan's Interest; Vote For ALONZO ELAM

During my campaign for County Judge, my only promise to the people has been that I will try to give to them honest sincere and sober government on the part of the County Judge's office. There are a number of things, however, that I felt very strongly about and feel that the County Judge could do for Morgan County that has not been done in the past. One of these things as I have stated before, is the obtaining of surplus food, in the way of frozen meats, cheese, beans and other surplus foods, that have been purchased by the federal government and which are available to the needy free of charge. Most all of the counties adjoining Morgan County, farming counties, as well as mining counties, have been receiving this aid. There is available to Morgan County thousands of dollars worth of food through this source only for the asking, and certainly the cost of hiring a clerk to handle this program at a salary of approximately \$200 would be a very small amount compared to the benefits to be received by the needy families in our county.

Our County Judge has stated that there are very few families in our county in actual need. I certainly wish this were true. However, the record shows that there are more than 400 needy families in our county receiving aid and assistance of one kind or another. Certainly all of these families, as well as some others that have not been able to qualify to draw some type of welfare benefits, could certainly use assistance in the way of surplus food, which the federal government is willing to provide free of charge. I feel that as much of this surplus food as needed should be used in our county before any is sent to other countries for distribution.

My opponent has made quite a stir about taxes in his campaign for re-election. I have stated heretofore, but wish to reemphasize that I am not in favor of any increase in our property taxes and will oppose any attempt to increase our property taxes on behalf of any person or group of persons. As I have also heretofore stated, many of us can take a look at our tax receipts four years ago

and look at our tax receipts for 1956 and see that our taxes have already been increased more than in any like period of time in our history.

I am sure that every citizen of Morgan County is vitally interested in the building and maintaining of more and better roads

in our county. I know that our present County Judge has admitted to many of you that he is unable to cooperate with our state officials in carrying on the road program. If such is the fact, then he has admitted himself that he is in no position to render the proper service in our county in

the road building program in the next four years. As you people know, the people of Kentucky voted a bond issue to match federal funds to start a road building program in our State on a scale that has never been done before. The next four years will be a period in which the greatest road building program in Kentucky or any other state will get underway. I have been assured by the men in charge of our road building program in Kentucky that they will cooperate with me one hundred percent, if I am elected as County Judge, for the next four years, and I feel that I will be in position to get the maximum amount of roads in Morgan County. I myself, have had ten years' experience working with the highway department in building and maintaining roads and feel that my experience will also help me in working with our road officials in carrying out our road program for the next four years, and it is my honest and sincere belief that we have the opportunity to obtain more for our roads in the next four years than we have obtained in all of the last eight years.

It appears from my opponent's article in last week's paper that he listed practically every road in Morgan County as being built or improved during his term of office. You people who live along these roads know yourselves that most of these roads were built long before he became county judge and that many of them were built by you yourselves, with your own money and your own labor and that these roads were not built by our county judge. Certainly, with the two-cent gasoline tax, which went into effect after Judge Halsey was elected, there was more money available for the building and maintaining roads than had ever been made available before that time, and certainly the people of Morgan County were entitled to every cent that was spent on their roads during the past eight years.

I earnestly and sincerely solicit your vote and your support in my race for county judge and promise you that when elected I will work vigorously to obtain all of the benefits that I can for Morgan County.

Sincerely,
ALONZO ELAM

AUSTIN HILL IN FINAL APPEAL

TO THE VOTERS OF MORGAN COUNTY:

On May 28th you will go to the polls to select a County Court Clerk for the next four years. I am willing and happy to run upon my record as your clerk for the past four years. I have done my very best to administer the office in a way that was legal and impartial to everyone. You have felt free to come to my office for any information you needed and we have been happy to serve you and help you in any way possible.

I was born and reared in the Paint section of Morgan county. I worked as a salesman for a number of years and traveled over all of Morgan county and when our country was plunged into the war I answered the call to the colors and served in the United States Army. I am not making this race on my war record, as most of the rest of young Morgan countians did the same. I just wanted to inform you of some of my experiences.

I have campaigned long and hard but Morgan county is a large county and in a short period of time it is difficult to see everyone. So I want to appeal to you through this method to support me in this coming primary and return me to office for the next four years, and I can assure you that the same courteous and efficient service will be at your command as you have had in the past.

Finally, I wish to thank all of you who have assured me of your support and those that have given time and energy to re-elect me as your County Court Clerk for the next four years.

I remain,
Yours truly,
AUSTIN HILL

PLANE WRECKAGE REMOVED

Crews from Battle Creek, Mich. came Thursday and removed the wreckage of the Cessna 140 airplane at Forrest. The plane wrecked in a take-off Tuesday of last week after being forced down because of a storm and low fuel supply.

MASONS CONFER DEGREES

Highland Masonic Lodge of West Liberty conferred degrees on two candidates at its meeting last Saturday evening. The entered apprentice degree was conferred on Dr. Delbert Blevins and the fellowcraft degree on Joe Gevedon.

GARDNER STANDS ON HIS RECORD

During the campaign I have refrained from vilifying my opponent. There has been so much of that in recent years that the voters, I believe, are sick and tired of it. It is disappointing to learn there has been circulated false rumors that I have let down on the prosecution of cases. I refused to attribute these reports directly to my opponent until he expressed such thoughts in a recent issue of the Carter County paper.

A look into the record will cause such accusations to fall flat. There is not space to report all the cases, but the record shows that of the 17 murder cases tried during my term, there were 13 convictions, 3 acquittals and 1 hung jury.

It might be interesting to look at the record of the shooting occurring in the Rock House section when the victim was paralyzed from his waist down. The defendant was brought to trial, being represented by my opponent. The jury found the defendant guilty and fixed his punishment at 21 years in the State Reformatory. There has been some concern among the good people of the Rock House community as to why the defendant has never been taken to the penitentiary. The answer is that he is awaiting an appeal of his case to the Court of Appeals. The law firm of Nickell and Walter is representing the defendant on the appeal.

If re-elected Commonwealth Attorney I shall continue to forcefully prosecute all cases which are based on reliable proof.

W. MAJOR GARDNER

DR. GULLETT REPLIES TO REED HALSEY

In last week's issue of the Licking Valley Courier, Reed Halsey, a candidate for County Judge, made a personal attack upon me, in which he stated, "Because of my refusal to assist in securing an additional tax levy, I am now being opposed by my friend Dr. Ralph Gullett. During the first part of October, 1956, I received a certified letter from the Gullett and Spencer Clinic signed by Dr. Ralph Gullett, requesting my help as County Judge in levying an additional tax burden on our people." At no time did I ever write such a letter to Judge Halsey or to anyone else. If Mr. Halsey has such a letter, I would like for him to publish it so that all of the people, including myself, can see what he is talking about. I have heard that he has been showing people a letter of some sort and telling them that it was a letter from me, but not letting the people read it.

IT IS CERTAINLY VERY TRUE HOWEVER, THAT I AM VERY MUCH OPPOSED TO REED HALSEY'S RE-ELECTION, and the above mentioned misstatement of facts by Reed Halsey in our county newspaper is only one of the many reasons that I am opposed to his re-election, and it is not because of any refusal that he may have made in giving assistance to levying any type of tax. In the first place, any county judge should know, as I am sure Reed Halsey himself knows, that he does not have any power to raise taxes or to lower taxes on the people of the county as such can only be done by taking the proper action through the County Board of Education and the Fiscal Court and only finally approved by THE VOTE OF THE PEOPLE. The County Judge, Fiscal Court nor anyone else has any power to lower or increase the tax rate on property in the county.

I am not running for office myself and am not interested in any political office, but am only interested for the welfare of Morgan County. I have no reason to state any falsehoods or attempt to mislead anyone in this election or in any other election. However, I feel that the people of Morgan County should be able to see for themselves now, if they have not heretofore, that our present County Judge is only interested in

Roy C. Elam For Sheri Makes Final Statement to the People

I have tried to see every voter in Morgan County but it's hard to find everyone at home.

While I make my campaign over the county, if I have missed you don't feel bad about it because I am asking you by this paper to go to the polls and vote for me and I will make Morgan County a better place to live in. I am the only candidate that lives in West Liberty.

By living in West Liberty, I and my deputies can give all parts of the county better protection than the other candidates. In the race for Sheriff I could be just about as close to you as your telephone.

The other candidates for Sheriff have offered the people nothing up to this time in the paper. Here's what I and my deputies will do when we take office—

1. We will patrol the roads and make it safe to drive on.
 2. We will visit the pie suppers and plays at your school.
 3. We will visit the churches and try to keep disturbances down. I was in a fine community Sunday and heard some fine people say that they like to attend church regularly but they are afraid to drive on the road because there are so many wrecks. So I am asking you people to help me win this race.
- This is just part of a Sheriff's duty. We will carry out all parts of our duties the full four years. It makes no difference what rumors you hear, I'm in this race to the end. Your vote and influence will be appreciated.

ROY C. ELAM
(Political Adv.)

Reed Halsey Makes Statement to the People

In my opening statement to you published in this newspaper April 18, 1957, I said that I was seeking re-election upon my record of past performance as your County Judge—not upon promises of things to be done. It is easy to promise anything.

In order to get the record straight and to get at the facts concerning your County's affairs, let's see what the facts really are:

TAXES
(1) NO INCREASE IN YOUR TAX RATE HAS BEEN MADE BY MORGAN COUNTY DURING MY TERM OF OFFICE.

(2) The Morgan Board of Supervisors has NOT increased a single property assessment of any farmer or business man during my term of office.

I have refused to cooperate with any person in an effort to pass a special tax levy. Because of my refusal to assist in securing an additional tax levy, I am now being opposed by my friend, Dr. Ralph Gullett. During the first part of October, 1956, I received a certified letter from the Gullett and Spencer Clinic, signed by Dr. Ralph Gullett, requesting my help as County Judge in levying an additional tax burden on our people. I don't blame Dr. Ralph Gullett and his friends who can afford to pay more taxes for favoring this tax, but many of our farmers cannot stand this extra burden. They pay all the taxes they can afford as it is.

(3) The only increase in taxes inflicted on our people here in Morgan County was the blanket property assessment increase made by the State in 1954, and the increase in Income Taxes passed by the present State administration in 1956.

SURPLUS COMMODITIES
I have made a careful check of Federal Aid regarding surplus commodities. These commodities are being accepted in the Eastern Kentucky coal fields where unemployment is high and economic conditions are exceptionally bad. Most of the miners do not have farms or gardens. I know of no Agricultural County near us receiving this aid. The cost of hiring personnel and administering this program, which is required for a county to get approved, would cost the Morgan County taxpayers several hundred dollars per month. We are fortunate in our county that very few families are in actual need of food. Practically all families in dire circumstances are already receiving some form of Federal or State help.

THE COUNTY JUDGE'S OFFICE
The office of the County Judge

has always been open to the public. I have met and talked to thousands of people in my office. During my next term, I again invite each of you to visit or inspect the office whenever you desire.

The Fiscal Court meetings have always been and will continue to be during my next four years as Judge, open to the public.

ROADS
My road program does not need explanation. It speaks for itself. I urge you to drive into any precinct in Morgan County and see for yourself the improvements that have been made since I have been your County Judge.

MORE IMPROVED ROADS HAVE BEEN BUILT DURING MY SERVICE AS JUDGE THAN DURING ALL THE REST OF THE TIME THAT MORGAN COUNTY HAS BEEN A COUNTY.

I do not know what my opponent means by saying I over-drew state road building funds for our county. Perhaps I am guilty. I am not acquainted with the Highway Department's book-keeping system. I just got, and will continue to get, every state road for you that I can.

CONCLUSION
I have always cooperated, and will continue to cooperate, with all agencies of the Federal or State governments such as Public Health Service, County Agent, Department of Conservation and others in order to improve our conditions and make Morgan County a better place in which to live.

The following roads have been built or improved since I have been in office:

WALTER CHALLENGES RECORD OF COMMONWEALTH ATTY.

My opponent has based his campaign by newspaper articles in the counties of our district on the basis of his record of convictions on behalf of the Commonwealth for the past six years. I am sure that the citizens of Morgan County are aware of the lack of convictions of the criminal cases in Morgan County, especially cases such as murder and rape, as well as the lesser offenses involving the liquor traffic in general. I do not know of the record of convictions in Carter County. However, I attended part of the session of the last term of court in Carter County and there were two felony cases tried, one a murder charge against Wade Fleming of Willard, Kentucky, and the other a rape charge which occurred at Soldier, Kentucky. The good citizens of these communities were highly enraged about these deliberate and atrocious crimes and are particularly enraged since both defendants were acquitted of the charges placed against them.

Everywhere I have been in this district, the good citizens are demanding stronger and more effective prosecution on behalf of the Commonwealth attorney and feel that since he can be paid as much as \$6,000.00 a year, plus \$1,500.00 tax-free expense account that those persons interested in prosecutions of criminal cases should not be required to take their own money and employ outside counsel to prosecute their criminal cases.

I wish to reaffirm my promise to the people of this district, that if elected for the office of Commonwealth Attorney, I will prosecute all such criminal cases to the full extent of the law, without fear or favor. Your vote, your work and your influence on next Tuesday will be sincerely and deeply appreciated.

Sincerely,
RALPH N. WALTER

Veterans Endorse Walter

During World War II, I, as well as one of my brothers, served in the Armed Forces of the United States. My brother did not return, but gave his life on the battlefields of Europe so that we might enjoy the freedom and privileges that we now enjoy in Democracy. I cannot believe that the people of our country will forget these sacrifices or that they have forgotten them.

For these reasons, I believe that the Veterans of Morgan County, and their mothers and fathers, brothers and sisters and friends will give their whole-hearted sup-

port to Ralph N. Walter in his race for Commonwealth Attorney.
Tommie M. Brooks
Veteran, World War II

During the years the Federal Government, as well as all of the adjoining states of Kentucky, have recognized their debt of gratitude to the veterans of all wars by enacting legislation giving the bonus to these veterans as a token of their appreciation for the services rendered to their country. The State of Kentucky has never given a bonus to its veterans. However, in 1950, Ralph Walter, while serving as our Representative at Frankfort, sponsored a bill to provide a bonus to the veterans of all wars, and he was successful in getting this bill out of the committee and made the

first speech on the floor of the House for this bill and it passed the House of Representatives by an overwhelming majority. We did not have sufficient support, however, in the Senate to get this bill enacted into law. We feel that the veterans of Morgan County and their families and friends will show Ralph Walter their gratitude for his efforts on their behalf by giving him their whole-hearted support in this election, and particularly since Ralph is the only veteran running for the office of Commonwealth Attorney.

OUR GRADUATES

At this time of each year there are many boys and girls who assemble in auditoriums all over the country to receive recognition that they have successfully completed some step in their school work. It may be eighth grade diploma, high school diploma or college degree. And as each of these young people march across the many different stages of the various schools there is always a hope in the hearts of their parents and teachers that this is only the beginning of many successful completions of good and worthwhile things for their child or their student.

Sad but true in far too many cases, many of these parents never see their child again receive recognition. And many teachers never feel this proud moment again.

What happens at this stage in these young people's lives that causes the spark of ambition to fade and in far too many cases to die. Certainly no parent or teacher intentionally said or did anything to cause them to slow up and some cases to stop here. If each of these young people knew the many prayers, the many sacrifices that had been made that they might reach the place in life where they now stand, would it inspire them to rekindle their spark of ambition and cause them to resolve that these prayers and sacrifices would not have been made in vain. I wonder if it would help these young people if they had heard the prayers of many of their mothers as she prayed while ironing a piece of their child's clothing praying that it would not show too much sign of wear until she could afford to replace it with a new one.

Would it help them if they could have heard some father as he gripped his plow handle in the field or as he stood beside his machine in some factory and prayed for God to relieve his physical pain so that he could continue to work and send his child on to the stage which these young people have now reached in life.

Would it help them if they had heard some teacher praying for guidance that they might be able to pass on to them the things they should know.

Knowing these things, young people, can you quit now? There is an endless road in front of you. There are many points of recognition along this road. How many of them you will reach is now up to you. This road has many obstacles. You will be required to do much thinking and much work to overcome these. But don't forget, it has taken a lot of work for someone to put you where you are now. And remember those who have been doing for you in the past never asked to be relieved of work. They only asked to be able to work to put you where you are at this time.

CLYDE LEWIS MAKES STATEMENT

I am now a member of the Fiscal Court of Morgan County and have been for four years last part. I am the Democratic nominee for Magistrate of my district, and as such Magistrate I have been associated with Judge Reed Halsey and have found him at all times a hard worker for the best interest of Morgan County.

He has always done all that he could to procure better roads for our county. He has at all times caused the county to live within its income under our present tax structure and has so managed the county's financial affairs in such way as that the county has not spent more money than the tax revenue produced.

I endorse the candidacy of Reed Halsey for County Judge and urge our people to support him in this race to the end that our county may continue in its present economical policies.

FOR HALSEY FOR JUDGE

To the voters, taxpayers and my friends of Morgan county—I take this means of soliciting your vote and influence—for Reed Halsey for Judge. He has kept our taxes down and built more roads during his term of office than in all the history of the county. LET'S RELECT REED HALSEY.

Message to the Voters

TO THE VOTERS OF MORGAN COUNTY—

The time is near at hand when the voters of our county will choose their county officials for the next four years.

It is not my aim or intentions to attempt to smear any candidate or group of candidates but I do wish to present a few facts which should be of interest to voters of our county, especially in the County Judge's race.

In a recent issue of the county paper Judge Halsey lists a long list of roads which he says have been built or improved under his administration as County Judge. A lot of these roads which Judge Halsey claims credit for were built before he ever thought of being County Judge and when a lot of the present day voters were yet unborn. Yet he would have the people of the county think that they never had any roads in the county until after he became Judge.

We admit that during the eight years of Judge Halsey's administration as County Judge with the aid and cooperation of a friendly administration at Frankfort, that he did build and improve a number of roads.

I ask the people of Morgan County how many roads has Judge Halsey built or improved during the past 18 months? Not even one.

Now if this road building County Judge is so fond of good roads why hasn't he continued building them. For the simple reason that he does not cooperate with the present State administration at Frankfort.

E. D. GROUP PLANS WOLFE COUNTY WORK

Two projects have been chosen by the Wolfe County Rural Development committee. The projects are a cleanup drive for the entire county and a campaign to rid the county of bungs disease.

Anyone with common sense knows the only way to improve our public road system is to have our County and State officials working in close cooperation with each other, and the only way the people of Morgan County can receive any benefits from this splendid road building program advocated by our great Governor is by electing Alonzo Elam County Judge and a friendly Fiscal Court to work with him.

In speaking of surplus commodities the Judge says that only those counties in the Eastern Kentucky coal fields where unemployment is high receive these commodities. Yet I am reliably informed that our neighbor counties of Magoffin, Wolfe, Menifee, Bath and others are receiving this aid. Now you know and I know and Judge Halsey knows that these counties are agricultural counties and are in no way connected with the coal producing section of our State.

Now friends, in conclusion let me ask you this question. Do you want Morgan County to go forward with one of its greatest road building programs in the history of the county? If you do then go to the polls May 28th and elect Alonzo Elam County Judge by an overwhelming majority. But if you don't want this to happen then go and support the same group that has been in power for the past 8 years and let them heckle and harass our Governor as they have done ever since he has been in office.

JEPHTHA SCHOOL TOURS

LEXINGTON AND FRANKFORT

April 19—Jephtha students with their teacher Mrs. Cecil Day, a number of parents, Mrs. Ruth Conover, Warren Robbins and Elmer Anderson arrived at the new capital grounds about noon.

There they met Vego Barnes, who opened the door of the new administration building. Most of the employees were off duty for Easter vacation. He gave a structural description of the building and if need be how easily and cheap any portion of the interior could be changed if so desired without any destruction of the building and much labor.

He stated there was no better planing departments where they saw United States.

A Mr. Jones as guide took the group through the various working departments where they saw the check cutting and stamping machines at work.

From there they went through an underground tunnel to the New Capitol building, viewed the Dome from the inside, with its state inscriptions; also in the Dome Alcove were seen statues of Lincoln, Clay and Adam.

Next they went to the Old Capitol, but unfortunately were too late to get inside. The grounds were beautiful with trees and walks. The group gathered on the steps for picture taking.

They ate lunch at a restaurant in Frankfort, then visited Daniel Boone's grave and cemetery overlooking, Kentucky River. From there they went to Lexington and the airport. They said the bluegrass land and homes were beautiful.

Mr. Anderson and Mr. Robbins took great interest in explaining to the group many events of past history. Mrs. Conover was very nice too.

We wish to thank Mrs. W. E. Thompson who met us at Dayton, Ohio, and joined in the tour telling us about the work in the different rooms where the Senators and Representatives worked while in session—the room where she worked for the state for four years.

We are grateful to the O.D.O. Club for the \$50, and to Mr. Jones, our superintendent for making it possible to take this trip.

We arrived back home at 8 o'clock p.m. All reported a wonderful time.

15 GRADUATE AT WRIGLEY SCHOOL

Commencement exercises were held at Wrigley school Thursday morning of last week. Addressing the graduating class was the Rev. Wardie Craft, teacher in the Cannel City school. His subject was, "Here Am I, Send Me."

The speaker told the graduates that it was fine to stick to it for eight years and to complete their first step in education. "Your parents have worked hard to keep you in school," he said. "Climb and reach higher ground. Do the best you can and give the best you have." He closed his speech with lines from Thanatopsis.

Supt. Walton Jones spoke to the graduates and urged them to continue their education. He paid tribute to the principal, Virgil Risner, and the teachers for the fine work they have done this year.

HOSPITAL FACT SHEET

Could you pay a big unexpected hospital bill out of your current savings? The chances are very good that you could not. Seventy two per cent of all American families have no savings account, or savings of less than \$500. That is why more and more persons are turning to pre-payment plans for health care. These plans allow the family to budget for their health needs just as they budget for all the other necessities of everyday living. Today, over 112 million Americans have some form of hospital pre-payment plan. Nearly half of all persons covered for hospital expenses are protected by Blue Cross Hospital Plan.

In Kentucky, membership in Blue Cross has grown to 610,000 persons, since the establishment of the plan here less than twenty years ago. Since 1938 Blue Cross has paid over \$38,000,000 for hospital care for its members. Payments in 1937 are expected to reach 12,000,000.

Blue Cross for hospital protection is sponsored by Kentucky Hospitals and the American Hospital Association. It is a non-profit organization governed by a board of directors made up of hospital administrators, doctors and civic leaders who give their services free of charge. Blue Shield, the surgical companion plan to Blue Cross is often described as "The Doctors' Own Plan" because it is the only plan endorsed by the medical profession through the State Medical Association. It also operates as a non-profit organization. Blue Cross and Blue Shield, as the foremost of all plans in Kentucky, show that when hospitals, doctors, and communities work together to find a way to protect the people against the financially ruinous effects of unexpected illness, they also help to stabilize the income of hospitals.

With pre-paid health plans hospitals are enabled to lower their charity fund and use the money thus saved to maintain modern, up-to-date hospital services for the community.

It is vital to remember that one should be very careful in choosing a health care plan. You want to make sure that you are adequately covered with the type protection you and your family need, protect yourself and your family now, by investigating the pre-payment health care plans available to you.

STATE DECIDES ELAM IS PARTY HEAD IN MORGAN

Clarence Smith Loses Decision By Committee

Billie Elam of West Liberty has been declared Morgan county chairman of the Democratic party by the Seventh District Democratic Committee and the decision has been ratified by the State Central Executive Committee, according to letters received here from Robert Humphrey, chairman of the State committee.

The Seventh District committee decided in favor of Elam over Clarence Smith of Jephtha who had been elected county chairman at a party convention held in the circuit court room at West Liberty last Dec. 8.

Elam, meanwhile, had been elected county chairman by a party convention held in the court house at the same time. The resulting contest went to the Seventh District committee for a decision last January. Letters announcing the district committee's decision were received here Tuesday by Elam and Smith.

Members of the district committee are: Bruce Walters, Pikeville; James Hammond, Ashland; Mrs. Wayne Stumbo, Prestonsburg; and Mrs. W. E. Crutcher, Morehead.

The convention that elected Smith had been called by C. K. Stacy, retiring county chairman. Fifteen precinct committeemen and 15 precinct committeewomen, elected at precinct conventions the previous Saturday, attended. In what was described as a harmony move, the regular group elected Smith, a Chandler supporter in the gubernatorial race, and a lifelong Democrat, as party chairman, and Dennis Mullins of Lenox, also a Chandler supporter in the gubernatorial race, as secretary.

In the meantime the pro-Chandler group held another convention downstairs and named Elam, Chandler's campaign manager in Morgan, as party chairman, and Atty. Ralph Walter as secretary.

JOHN A. KECK IS CANDIDATE FOR CIRCUIT JUDGE

Sometime ago I announced in this paper that I would be a candidate for re-election as Circuit Judge.

I believe the people of Morgan County are well acquainted with my record. You know the feeling and interest I have for Morgan County, having practiced law at West Liberty for almost four years prior to my appointment as State Highway Commissioner. During my service as your Commissioner of Highways, I made every effort to see that Morgan county received her fair share of roads.

As Circuit Judge I have attempted to conduct the office fairly and impartially and without regard to political considerations. In support of this statement, I refer you to any lawyer in this district.

I will be holding Court almost continuously between now and the primary, May 28th, and it will be impossible for me to see each of you personally. Therefore, I am using this means to express to you my appreciation

for your vote and your influence in my behalf.

Sincerely,
JOHN A. KECK

ONLY DEMOCRATIC CONTESTS TO BE DECIDED TUESDAY

**Party Primary
To Be Held On
Tuesday, May 28**

Morgan county voters will go to the polls next Tuesday to pick party nominees for all county offices, one state-wide office and four district offices.

Polls will open at 6 a.m. and close at 5 Central Standard Time. Although Tuesday's voting will be a primary election, the Democrat balloting in effect will be the final election for county offices since no Republicans filed for county offices. Thus, major interest is centering in the Democratic primary.

The Republican primary ballot will contain only two names, that of Judge John A. Keck and Atty. Lynn B. Wells for circuit judge. (Candidates for judgeships are permitted to file on both Democrat and Republican tickets.)

In addition to selecting Democratic nominees for county offices, voters in Morgan will help nominate a Democratic nominee for Clerk of the Court of Appeals to fill out the unexpired term of the late Charles K. O'Connell. Candidates are Miss Doris Owens, former deputy clerk and now serving as clerk by appointment of the Court, and J. L. Suter.

Morgan voters also will vote in four Democratic district races—for State Senator, State Representative, Circuit Judge and Commonwealth Attorney. J. Everett Bach of Jackson, present State Senator of the Morgan, Magoffin, Breathitt-Lee district, is being opposed for the Democratic nomination by Charles Davis also of Jackson. There are no Republican candidates.

Three Wolfe countains are vying for the Democratic nomination for State Representative of the Morgan-Elliott-Carter district—B. B. Edwards, D. Bach and Hubert L. Lykins. There are no Republican candidates.

John A. Keck, Circuit Judge of the Morgan-Elliott-Carter district is running for the Democratic nomination and is being opposed by Lynn B. Wells of West Liberty. Both have filed on the Republican ticket.

Commonwealth Attorney W. Major Gardner of West Liberty is running for the Democratic nomination and is opposed by Ralph N. Walter of West Liberty. Likewise, there are no Republican candidates in this race.

Candidates for county offices are: For County Judge—Alonzo Elam and Reed Halsey. For County Attorney—Thomas M. Davis and Julian R. Gabbard. For Circuit Court Clerk—Walter Franklin and Noah P. Greear. For County Court Clerk—Clyde Adams and Austin Hill.

For Sheriff—Clarence Smith, James Lowell Wright, Roy Elam and James Phillips. For Jailor—B. H. Patrick, Sambo Whitt, and Luther Adkins. For Tax Commissioner—Della Williams, Clifford Benton and Harry Coffee.

For Coroner—Willie E. Bentley and L. H. Owens. For Magistrate, District No. 1—J. F. Turner (Jim Crow) and Chess Dyer.

For Magistrate, District No. 2—W. (Buck) Smith, Quentin Johnson, Harlan McClain, C. W. Bailey, and Alonzo Holbrook. For Magistrate, District No. 4—Glenn Lawson and Ollie K. McGuire.

Wright Makes Final Appeal

In the waning days of the election I am again making my appeal to the voters of Morgan County. I feel I have no free privilege you have I ask that you consider my appeal and I will try to give you a good, sober and fair administration, as I have never drunk in my life and believe in defending the public and society in special. So, good friends, in my closing statement let me thank each of you who have stood by me and promised your support and to say I have no malice to those who have caused to oppose my nomination and election, and hope that none will regret that they cast their lot with me in this campaign.

Again I want to thank and show my appreciation. Respectfully,
JAMES LOWELL WRIGHT

GREEAR MAKES HIS LAST APPEAL

I have been a lifelong resident of Morgan County, Kentucky, and during my lifetime, I have been privileged to serve the people of Morgan County for one term as Tax Commissioner and one term as County Judge, and have had opportunity to become acquainted and visit in the home with practically every citizen in Morgan County. During this campaign for Circuit Court Clerk, I have again visited with most of you in Morgan County to solicit your vote and your support on my behalf. I have tried in the past to serve you honestly and sincerely and feel that my experience in public office will be very helpful to me in carrying out the duties of the Circuit Court Clerk, and I will be deeply grateful for your vote on next Tuesday.

Sincerely yours,
W. H. P. GREEAR

L. H. OWENS MAKES APPEAL TO VOTERS

TO THE VOTERS OF MORGAN COUNTY—
After having filed for the office of Coroner, I feel that there are a few things that I should explain to you. I work for the Potter Funeral Home and am a licensed funeral director and embalmer. In embalming college we got courses on anatomy, physiology, chemistry and the causes and cures for most of our common diseases. For that reason I think that an embalmer is next to a doctor as far as knowledge as to the cause of death to a human body is concerned.

I also am a member of the West Liberty Baptist church and Highland Lodge No. 511 F. & A. M. If I am elected you may rest assured that I will not sign a death certificate until I am sure as to the cause of death.

I think voters ought to weigh the qualifications of two candidates before casting their votes.
—L. H. OWENS

JULIAN R. GABBARD FOR COUNTY ATTY.

May I take this opportunity to thank my many, many friends and relatives of Morgan County for their interest in my race for county attorney. Words cannot express to you my appreciation for your support and influence. I sincerely want to be your next county attorney. I promise you I will perform honestly the duties required of me while serving as your county attorney.

getting re-elected himself and will use any means whatsoever to try to gain his re-election.

For these reasons, I would like to appeal to the voters of Morgan County in the name of good, honest and sincere government and for the benefit of our schools and our roads to go to the polls on Tuesday, May 28th and VOTE FOR ALONZO ELAM FOR COUNTY JUDGE. Let's let our conscience be our guide; let's not be afraid or intimidated by anyone.
